Dear Mr. Angel,

Thank you for your letter. Our Superfund Director, Enrique Manzanilla, will take the lead in responding to you.

Kind regards,

Alexis Strauss

Alexis Strauss  
Acting Regional Administrator  
E.P.A. Region 9  
75 Hawthorne Street  
San Francisco, CA 94105

**Subject:** Information request regarding Tetra Tech's work at Hunters Point Shipyard site

October 19, 2016

Alexis Strauss  
Acting Regional Administrator  
United States Environmental Protection Agency, Region IX  
75 Hawthorne Street  
San Francisco, CA

Dear Regional Administrator Strauss,

RE: Tetra Tech and the Hunters Point Naval Shipyard

We are writing to request vital information needed by residents of Bayview Hunters Point and the public that the Navy has failed to provide regarding the work done by federal contractor Tetra Tech at the Hunters Point Naval Shipyard.

We are writing this request to USEPA as your agency is the lead federal agency for this project, and as the Navy has failed to provide adequate responses if any at all – in violation of their environmental justice responsibilities.

1. What is the time period Tetra Tech has worked at the Hunters Point Shipyard?
2. How many soil samples has Tetra Tech taken during the entire period they've worked at the shipyard?
3. How many of the thousands of soil samples taken by Tetra Tech during their decades of work at the Shipyard were reviewed for quality control and by whom? What methods were used for quality control and is that in a written plan, and if so, please provide us a copy or link.
4. What is the status, scope and timeline of the USEPA investigation of the extent of Tetra Tech's falsification of soil samples that led to the September 13, 2016 letter from USEPA and DTSC to the Navy?
5. Specifically, which parcels of the Shipyard are subject to 5 year review, and please provide the status and calendar of the 5 year reviews for each parcel.
6. What was the extent (if any) of contamination removed based on the falsified samples and where was that soil disposed of?

Please provide the answers to these questions as soon as possible, ideally within the week. If some information would take longer than a week to answer, please provide prompt written answers to the other questions.

Thank you,  
For environmental justice,

Bradley Angel

Executive Director, Greenaction for Health and Environmental Justice
